

### In-Person (Group of 2 students with one tutor)

Assuming local coffee shops like Kindred or Summer Moon remain open, we will offer in-person sessions beginning in September. If at any point the community shuts down, we will need to move these groups to online with the same tutor.

Time	Monday	Tuesday	Wednesday
5:00-5:55		Algebra One (Hinkle) Precalculus (Minke)	Geometry (Molina) Physics (Gallenstein)
6:00-6:55		Geometry (Hinkle) Precalculus (Minke)	Algebra Two (Molina)
7:00-7:55		Calculus (Minke)	Algebra Two (Molina)
8:00-8:55			

\*Sections will be added as demand increases. If you desire in-person but this doesn't work with your schedule, or your course is missing, contact [dawn.minke@mathandmocha.com](mailto:dawn.minke@mathandmocha.com) to be put on a waitlist for a future group. Please be specific in the email about what works for your schedule.

### Online (Group of 3 students with one tutor)

Sessions will be held using zoom. These sessions work best if students can use a computer/laptop and smart phone simultaneously in case their tutor has them sending pictures or using multiple sites.

Time	Monday	Tuesday	Wednesday
5:00-5:55		Geometry (Burns) 7/8 Math (Harper)	
6:00-6:55		Algebra Two (Burns) Algebra One (Harper)	Precalculus (Minke)
7:00-7:55		Alg 2/Precal Hybrid (Burns)	
8:00-8:55			

\*Sections will be added as demand increases. If you desire online groups, but this doesn't work with your schedule, or your course is missing, contact [dawn.minke@mathandmocha.com](mailto:dawn.minke@mathandmocha.com) to be put on a waitlist for a future group. Please be specific in the email about what works for your schedule.

### Homework Helper (No set group, come and go drop-in sessions)

This new option allows for students to drop in on ANY of the below classes each day/week to get the difficult questions answered. It is an option best suited for motivated students that seem to grasp the concepts but get stuck on the tricky homework questions. Sessions will be held using zoom. These sessions work best if students can use a computer/laptop and smart phone simultaneously in case their tutor has them sending pictures or using multiple sites.

Time	Tuesday	Wednesday	Thursday
5:00-5:55	Science	Math	English

\*Sections will be added once demand increases.
